FINANCIAL INFORMATION

What are the costs involved in residency?

Our current Lifetime Lease costs for both 2 bedroom and 2 bedroom+study residences, are outlined in the attached Information Sheet.

Is there a recurrent Weekly Service and Maintenance Fee?

Residents are required to pay a weekly service and maintenance fee, based on either double occupancy or single occupancy, this fee is paid on a per calendar month basis. This fee covers council and water rates; cleaning, gardening and maintenance of the common areas within the Village; home building insurance; Live Life Mobile Alarm fees and on-site management. The current fees are outlined in the attached Information Sheet.

Can the Weekly Service and Maintenance Fee be varied in the future?

The fee may be increased in accordance with the Retirement Villages Act 1986 and, in general, this will mean annual increases not more than the Consumer Price Index.

How can I get involved in decisions about the Village's level of service and maintenance?

Residents will be invited to participate in decision-making regarding changes or improvements to general services and maintenance via the Residents Committee.

How much money do I get back after I leave?

When you leave Beolite Village you will receive the balance of your initial lease payment less the accrued Deferred Management Fee (calculated at 5% per annum of your lease payment, capped at 30% after 6 years), reasonable refurbishment costs and any outstanding Weekly Service and Maintenance Fees.

After I leave, how long will it be before I get my money back?

Your entitlement is paid within 14 days of a replacement resident taking occupancy.

After I leave, who receives my entitlement?

The money is paid to the resident or, in the event of death of a single resident, to the nominated beneficiary.

SECURE OCCUPANCY

Is my occupancy secure?

Yes. A lifetime lease provides protection for all residents as per the Retirement Villages Act 1986.

What if my health declines?

Beolite Village is an independent-living village and therefore does not provide aged care or health services. If a higher level of health care is required or for other unforeseen circumstances, occupancy may be ended in accordance with the lease agreement.

What system is available to resolve disputes?

As provided by the Retirement Villages Act 1986, any disputes will be resolved according to the terms of the Dispute Resolution Scheme established by Beolite Village.

What happens if Beolite Village is sold to another organisation?
